ABOUT ME

Passionate and performance-driven 3rd-year B.Tech CSBS student with a strong foundation in full-stack development and data-driven problem solving. Skilled in Java, Python, and modern web technologies, with a focus on creating clean, efficient, and user-friendly applications. Constantly exploring new tools and ideas to turn innovative concepts into impactful digital solutions.

EDUCATION

2023 - 2027

KIT - Kalaignarkarunanidhi
Institute of Technology,
Coimbatore | 8.25(CGPA)

Bachelor of Technology(CSBS)

Passionate about software engineering and web technologies. Skilled in developing efficient, user-centered solutions. Eager to solve real-world problems with innovative approaches.

2021 - 2023

Evaans Matriculation
Hr . Sec . School
Chennai | 10th-85% , 12th-79%

Higher Secondary(10-12)

Completed higher secondary education with excellence, cultivating a strong aptitude for logical reasoning and a keen interest in computer science and technology.

EXPERIENCE

Learn Logicify Technologies - Frontend(Intern)

Completed a 30-day Frontend Development Internship at Learn Logicify Technologies, where I worked with HTML, CSS, JavaScript, Bootstrap, DOM Manipulation, and JSON to build responsive and interactive web applications. Developed projects such as a Portfolio Website, To-Do List Application, E-Commerce Website, and Online Grocery Website. Additionally, gained foundational knowledge of Python, Django, and Flask, enhancing my understanding of full-stack web development.

SKILLS

- Java
- Python
- C
- Front-End
- APIs
- MySQL/SQLite
- Docker

PROJECTS

Budget Food Planner

Built using React, Python, Groq API, and LLM Lambda, it recommends budget-friendly recipes based on available ingredients and suggests food delivery options when needed.

MealMate Website

A React-based meal customization app with Tailwind CSS for styling and Supabase as the backend.

Progtutorx

A website to learn programming languages using AI, React, Supabase, and Python.
