EDUCATION

Bachelor of Engineering in Computer Science and Engineering (AI & ML)

Kalaigarkarunanidhi Institute of Technology

2023 – 2027

Current CGPA: 7.46/10

Schooling[Sri krishan matric.hr school]

Percentage: 84%

TECHNICAL SKILLS

- **Languages:** Python, Java, C, JavaScript
- **AI/ML:** TensorFlow, PyTorch, NumPy, Pandas, CNN, DNN
- **Web Development:** HTML, CSS, JavaScript, React.js, Node.js, RESTful APIs
- **Database:** My SQL
- **IoT:** Arduino, Raspberry Pi, Sensor Integration
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab

EXPERIENCE

Full Stack Development Intern | Ether Infotech

May 2026

- Developed responsive web applications using modern frontend and backend frameworks
- Collaborated with development team on design, implementation, and deployment of web solutions
- Gained expertise in industry-standard workflows, version control, and agile methodologies

PROJECTS

CivicEye AI-Public issue reporting system

- Developed **CivicEye AI+**, a full-stack civic issue reporting platform using React, Node.js, and MongoDB
- Implemented features like **issue tracking, admin dashboard, map integration, and AI-based classification**
- Designed a **responsive, modern UI** and followed best practices using Git and structured development workflows

Study Helper using IoT

- Designed IoT-based study assistance system with Arduino/Raspberry Pi for productivity enhancement
- Integrated sensors and microcontrollers for automated environment monitoring and smart notifications
- Developed Python backend for task automation and system control

Code Review Assistant

- Automated detection of bugs and code quality issues
- Optimization and best-practice suggestions
- User-friendly web interface for code submission
- Fast and scalable backend architecture

CERTIFICATIONS

Network Security – Coursera | Machine Learning for All – Coursera | Get Started with Python – Coursera

Agent blazer-on salesforce trailhead | Python essential – Coursera | Hackathon - IIT MADRAS | AWS Cloud Foundation

ACHIEVEMENTS

- Active competitive programmer on LeetCode and CodeChef with strong problem-solving skills
- **Codeforce:** Max rating-Specialist, 1514 | Rank: 1505 | division 2
- **codechef:** Max rating - **1475** | Position : **2 Star** | Problems : **700+** | Highest rank **1341** in Starters 216 (Rated) **167** in division **3. Global Rank** in Codechef : **54239**
- **AI-Assisted Smart Study Helper for Focus and Productivity Monitoring (AIFPM System)**
Published Research Paper — Developed an AI-based system for tracking study focus and delivering productivity insights.
